National Engineering Industries wins Deming Grand Prize

In Corporate / News  — by Bhargav S  — November 16, 2015

National Engineering Industries Ltd (NEIL), India’s largest bearings manufacturer and leading exporter has been conferred with the 2015 Deming Grand Prize — the world’s oldest and most widely recognised quality award. Rohit Saboo, President and CEO, NEIL received this award in Tokyo, Japan on behalf of the company on 11th November at the Keldanren Kalkan. NEIL is the makers of the premier brand NBC Bearings and part of the CK Birla Group, a USD 1.6 billion diversified business conglomerate.

In the last 1 year, NEIL has commissioned its fourth plant in Savali, Gujarat with an investment of Rs 500 crore. Now with the 4 manufacturing plants spread across – Jaipur, Newai, Manesar and Baroda (Savali), NEIL has become the largest manufacturer of bearings in India with a capacity of 100 million bearings in more than a 1000 sizes. Owning to the company’s high quality and exceptional standards, NEIL exports to the leaders of the automotive industry across the globe in two-wheeler, passenger cars and commercial vehicle segments. NEIL registered an overall turnover of Rs 1,600 crores in FY14-15 and exports have grown seven folds over the last 5 years from $5 million in 2009 to $35 million in FY 2015.
Rohit Saboo said, “We are extremely privileged to join the distinguished list of companies across the globe that have been conferred with the Deming Grand Prize which has been awarded to NEIL in 2015. This award is yet another example of NEIL’s growing manufacturing prowess and quality processes. Being conferred upon with this award signifies our commitment to manufacturing excellence and the benchmarks we have set for ourselves over the last 6 decades. With the support of our customers, employees, vendors and all other stakeholders, our journey over the years has been exciting and this award is a tremendous inspiration for us to move on with the winning spirit and achieve new heights.”

He further added, “Over the years, we have been able to establish ourselves as a dependable partner who is focussed on adapting to ever changing customer environments through consistent investment in technology. Our commitment to customers has been one of the key enablers helping us stand in good stead vis-à-vis our competition.”

Deming Grand Prize recognises both individuals and businesses for their contribution to the field of Total Quality Management (TQM). Demonstration of consistent commitment to manufacturing excellence through TQM has been the driving force behind the company being conferred upon this prestigious global award.

In 2010 NEIL was also conferred with the Deming Prize. According to the process of assessment for this prestigious award, an organization may apply for the Deming Grand Prize three years or more (including the award year) after it has received the Deming Prize. When it is recognized that an applicant’s implementation of TQM has improved substantially beyond the level at the time it won the Deming Prize, the organization is awarded.
