

Wheel End Solutions

We offer a wide range of customized wheel end bearing solutions to specific customer requirements, from high quality conventional bearings to pre-set hub assembly and Gen3 Bearings with sensors.

Wheel End Challenges

- ✓ Frequent maintenance schedule
- ✓ Withstand higher operating loads
- ✓ High temperature sustainability
- ✓ Increased system rigidity
- ✓ High contamination

Bearing Requirements

- ✓ Easy and hassle free bearing fitment
- ✓ Optimized pre-load setting
- ✓ Optimum bearing's life.
- ✓ Maintenance free
- ✓ Integrated assembly: ready-to-fit

Solutions

- ✓ Conventional solution
- ✓ Match set bearing
- ✓ Unitized TRB and DRAC bearing
- ✓ Pre-set hub assembly and Gen3 bearing
