

Bioplastic Cage

For Bearings

Cage material (PA410+GF) with enhanced property as compared to PA66+GF and improved sustainability

Features

- ✓ 91% CO2 reduction in RM production
- ✓ Plant-based source as compared to PA66 (fossilbased)
- ✓ Less moisture absorption as compared to PA66
- ✓ Better dimensional stability as compared to PA66
- ✓ Better chemical resistance as compared to PA66

Benefits

- ✓ Lower moisture absorption
- ✓ Superior mechanical properties
- ✓ Enhanced chemical resistance
- ✓ Sustainability

Application

- ✓ Automotive
- ✓ Industrial
- ✓ Railways

Ball and Roller Bearings
