

# NATIONAL ENGINEERING INDUSTRIES LTD.

## ENERGY MANAGEMENT POLICY

We at NEI Ltd. are committed to continually improve our energy performance in manufacturing of different types of bearings, allied components and assemblies for various applications. We shall strive to:

- Optimize and maintain the resources and enhance energy performance by adopting continual improvement plans.
- Implement and review the energy objectives and targets periodically and ensure availability of information and resources to all the stakeholders.
- Adopt energy efficient products and services to ensure optimal energy performance.
- Comply with applicable legal and other requirements related to energy use, consumption and efficiency.
